About GO Sortplex

GO Sortplex is a technology solutions provider dedicated to developing smart systems tailored for schools and learning institutions. Our flagship product GO Card is an affordable, all-in-one Smart School ID Card and Attendance System built to improve safety, communication, and data tracking in schools.

Purpose of this Proposal

The GO Card is a smart ID and attendance solution designed to enhance student safety, automate attendance tracking, and improve communication with parents. It combines digital ID and instant SMS alerts, giving schools real-time attendance data and parents timely updates. Affordable and easy to use, GO Card helps schools operate more efficiently while promoting accountability and trust from parents.

GO Sortplex

Solutions that sort it!

What is GO Card?

GO Card is a smart student/staff identification system that integrates:

- **Digital ID Cards** with school branding, student photo, and vital info (e.g., blood group for emergencies)
- **QR Code Scanning** to monitor attendance with timestamps
- **Instant SMS Alerts** to notify parents when their child arrives or departs school
- **Analytics Dashboard** for school administrators to monitor real-time attendance reports

Each card serves multiple purposes: identification, attendance, parent communication, and safety.

How GO Card Works

GO Card uses both **NFC** and **QR Code** technology.

Inside the school, students tap the card for attendance, which triggers **instant SMS** alerts to parents, whenever a student enters or leaves the school. Outside the school, the GO Card can be scanned to access the school's website and contact a school representative. It serves well for publicity, enquiries, or emergencies.

Why Go Card

Feature / Capability	GO Card (by GO Sortplus)	Manual Register	Biometric Systems	Standard School ID Card
Digital Attendance Tracking	✓ Yes	✗ No	✓ Yes	✗ No
