GO CARD

Attendance and ID system for organization

www.gosortplux.com

ABOUT GO SORTPLUX

GO Sortplux is a technology solutions provider dedicated to developing smart systems tailored for institutions and organizations. Our flagship attendance product is an affordable, digital Smart ID and Attendance System built to improve safety, communication, validation and data tracking in your organization.

PURPOSE OF THIS PROPOSAL

To enhance operational efficiency, staff accountability, and workplace security, Go Sortplux Limited proposes the deployment of a Biometric Attendance and Smart Identification System in your organization.

The solution integrates fingerprint based attendance technology with our Smart Go Card a digital ID system that improves staff verification, record management, and organizational security.

SYSTEM OVERVIEW

Biometric Attendance System

A reliable fingerprint device will automate staff clock-in and clock-out, providing accurate, real-time attendance data while eliminating proxy sign-ins and manual registers. The system integrates easily with HR and payroll software

Smart Go Card (Digital ID Card)

Each staff member will receive a personalized Smart Go Card linked to a digital profile. When scanned, it displays verified information such as name, department, and staff ID — serving as the official means of identification across your organization.

KEY FEATURES AND BENEFITS

Feature	Benefit
Fingerprint Attendance	Eliminates time fraud and ensures accurate staff records
Smart Go Card	Secure and professional staff identification
Digital Profile Database	Quick access to verified staff information
HR/Payroll Integration	Simplifies attendance tracking and payroll processing
Data Security	Encrypted, restricted-access record storage
Scalable Design	Easily expandable for future growth

IMPLIMENTATION TIMELINE

Phase	Phase	Phase
1	System procurement and preparation	2 days
2	Installation of attendance device(s)	1 day
3	Staff enrollment and profile setup	2–3 days
4	Go Card design, printing, and activation	3 days
5	Testing, training, and handover	2 days
